ABOUT

At MOZY, we believe that a bathroom is more than just a functional space — it is a reflection of comfort, design, and quality of life. Based in Eskisehir, Turkiye, MOZY develops and supplies contemporary bathroom and building solutions that combine aesthetics, durability, and functionality.

All MOZY products are 100% Turkish origin, produced with a strong focus on quality standards, reliable materials, and modern manufacturing practices. Our product portfolio includes bathroom furniture, sanitaryware, washbasins, toilet seats, faucets, mixers, and shower sets, designed to meet the expectations of both residential and commercial projects.

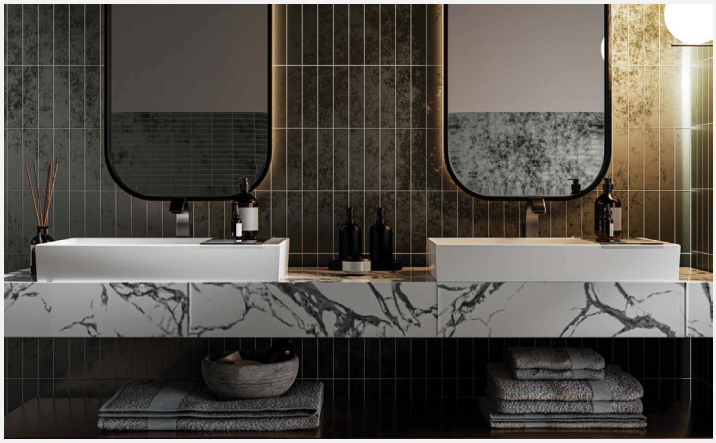

By offering mixed bathroom product groups, MOZY enables its partners to source all essential bathroom products from a single supplier, ensuring convenience, consistency, and efficiency throughout the procurement process. This integrated approach helps simplify project planning while maintaining a harmonious design language.

In addition to the products featured in this catalog, MOZY also supplies project-based and spot items upon request. For special designs, alternative models, or tailor-made solutions that are not included in the catalog, our team is always available to support your specific needs.

As an export-oriented brand, MOZY is committed to flexibility, competitive pricing, and long-term cooperation. This catalog showcases our current collections, while our wider capabilities allow us to respond dynamically to different markets and projects. We look forward to building strong and sustainable partnerships with you.

''Designs in bathroom where innovation and aesthetics match''

General Information & Product Disclaimer

All products presented in this catalogue reflect Mozy Bath's commitment to superior quality, refined design, and continuous innovation.

Designed and manufactured in Turkiye, Mozy Bath products combine craftsmanship, modern technology, and international standards.
